Department of Genetics  
Stanford University  
Palo Alto, California

Dear Dr. Lederberg:

Your participation in the breakfast forum on chemical and biological warfare was very helpful to the Members of Congress and their staff who were present.

I want you to know that I will be continuing my efforts to deal with this very important and dangerous subject. I do hope you will use your influence to arouse support for H. J. Res 691, the resolution introduced by Congressman Richard D. McCarthy and myself for a commission to examine into the ecological effects of the chemical warfare waged by us in Vietnam.

With all good wishes, I am,

Sincerely,

Edward I. Koch
